

Help us celebrate Earth Day by donating eyeglasses, sunglasses and hearing aids for reuse. We will be collecting all types of glasses for children and adults, including very strong and very weak prescriptions. Reading glasses and non-prescription sunglasses are also being collected. Any type of hearing aid is accepted.

The World Health Organization estimates that more than four million pairs of eyeglasses are thrown away each year in North America alone. At the same time, more than one billion people need eyeglasses but cannot afford them. The used glasses and hearing aids collected can help children and adults in developing countries enjoy a better quality of life. Many will experience corrected vision and better hearing for

the first time, enabling them to read, attend school, gain employment and take care of their families.

Your donation can change the lives of many across the globe!

All donations will be given to the LaGrange Lions Club for sorting and shipment to a Lions Recycle for Sight and Hearing Aid Collection Program center. They are then cleaned and prepared for distribution. They are delivered free of charge to those in need.
